RADIOLITE #600

TECHNICAL DATA SHEET

Packaging	20 kg kraft paper bag
Description	Flux Calcined Diatomite Powder
Color	White
Specific Gravity (g/cm^3)	2.2

Typical Physical Properties

Moisture %	0.3
pH	10
Permeability (Darcy)	1.6
Wet Cake Density (g/cm^3)	≤ 0.39
Median Particle Size, D50 (μ)	30
+ 150 mesh %	≤ 10

Chemical Analysis (%)

SiO_2	89.5
Al_2O_3	3.6
Fe_2O_3	1.9
CaO	0.4
MgO	0.4
Na_2O	3.5
Loss on ignition	0.5

This sheet shows a typical data of Radiolite which is based upon our test methods operated randomly. This is supplied as a technical service and its content would be changed without notification. Data shown above are consider precise and reliable. However, no guarantee is given to the delivered product.
